

# How To Do Commercializable Research

**Tassadaq Hussain Cheema**

Ph.D. Supercomputing and AI  
Professor at University of Sialkot  
Pakistan Supercomputing Center, Islamabad  
Barcelona Supercomputing Center, Spain  
[www.tassadaq.ucerd.com](http://www.tassadaq.ucerd.com)

# Speaker's Intro

## Academia

---

**PhD – UPC BarcelonaTech Spain**

Microsoft Cambridge, IBM, Barcelona Supercomputing Center, PLDA Italia

---

Proven successful record of academic management as Professor and Dean.

---

Enhanced Quality of academic **outcomes** into **applied and sustainable projects**.

---

## Research

---

Developed Labs Supercomputing, Distributed Artificial Intelligence, Computer Vision, Software Defined Radio, Parallel programming and Embedded Systems;

---

**80+ publications** and **PKR 60+ Million research funding** during the last 5 years.

---

# Introduction

## Experience

**19+ year's versatile experience** in the area of Computing, Artificial Intelligence and IT. Served National and International Academia, Industry and Government

- **Barcelona Science Park Spain**
- **Cambridge Science Park UK**
- **Technopolis Of Sofia-Antipolis, France**

## Development and Commercialization

**30+ Million of Industrial Funding.**

Developed Digital Systems for Industry.  
Transform Idea into product.

Innovation and Commercialization for Sustainable economic and industrial development.

**Capacity Building:** Conducted more than **50 national and international workshops and training on Commercializable research, Writing successful grant proposal, and research and innovation.**

Provides Consultancy and Support for Entrepreneurship, Start-ups, Business Innovation and Technology transfer.

# Completed Projects

- 1) Development of Automated Guided Vehicle for Mars mission (case study) 2 Million PKR foreign funding 2021.
- 2) Indigenous Development of Ventilator as Software Development Team-lead Rs. 12M Funded by Pakistan Science Foundation 2020.
- 3) Development Of A Scalable Heterogeneous Supercomputer, as PI HEC funding of 16 Millions under TDF-3rd Call 2018/19.
- 4) Design, Development And Production Of Hardware Based Gel Documentation System For DNA, RNA And Proteins Analysis, as Co-PI HEC funding of 18 Millions under TDF-3rd Call 2018/19.
- 5) Spanish Ministry Severo Ochoa Mobility Grant to start collaboration with Barcelona Computing Center (2019)
- 6) Iris based Disease Diagnostic System as PI HEC Funding of 2.52 Million under NRPU 2017/18.

# Submitted Projects: (120 Million PKR)

- (1) Development of Low Cost Indigenous **Rice Color Sorting Machine**, worth 9.8 Million PKR, PSF
- (2) Development of Energy and **Cost Efficient Electric Fan Controller**, worth 7.8 Million PKR, PSF
- (3) Computing and Artificial Intelligence Platform for Health Sciences.** Worth 20 Millions PKR, funding source: HEC–LCF status: Shortlisted
- (4) **Virtual Reality Platform** for Rehabilitation. Worth 9.5 Millions PKR, Funding Source: HEC-NRPU Status: Shortlisted
- (5) Computing Platform for **Data Sciences**, Worth 14 Millions PKR, HEC-TTSF Status: Shortlisted
- (6) **Aerodynamics** Testing of Football, Worth 6.5 Millions PKR, PCSIR Status: Submitted
- (7) A smart multi-sensor based system for quantization and **dispersion of smog**, Worth 7 Millions PKR, PSF Status: Shortlisted
- (8) A Computing Platform for Artificial Intelligence Applications, Worth 10 Millions PKR, PSF Status: Submitted
- (9) Smart **Foot Weight Distribution System**, Worth 7.5 Millions PKR, HEC-ISF Status: Submitted

# Agenda

- **Identify Impact based Research**
- **Research and Development Strategies**
- **Success Stories**

**Innovation:** Development of **creative** method, process, device or product.

**Research:** Innovative and systematic work undertaken to increase the stock of **scientific knowledge**.

**Technology:** Machinery and equipment developed from the application of **scientific knowledge**.

**Commercial Application:** An application/product/equipment/service that is salable, can generate profit and marketable.

**Sustainable Development:** National initiative built on local economies, industrial need and unique assets to address their individual **challenges** and provide quantifiable real-world benefits.

# SUSTAINABLE DEVELOPMENT GOALS

**1** NO POVERTY

**2** ZERO HUNGER

**3** GOOD HEALTH AND WELL-BEING

**4** QUALITY EDUCATION

**5** GENDER EQUALITY

**6** CLEAN WATER AND SANITATION

**7** AFFORDABLE AND CLEAN ENERGY

**8** DECENT WORK AND ECONOMIC GROWTH

**9** INDUSTRY, INNOVATION AND INFRASTRUCTURE

**10** REDUCED INEQUALITIES

**11** SUSTAINABLE CITIES AND COMMUNITIES

**12** RESPONSIBLE CONSUMPTION AND PRODUCTION

**13** CLIMATE ACTION

**14** LIFE BELOW WATER

**15** LIFE ON LAND

**16** PEACE, JUSTICE AND STRONG INSTITUTIONS

**17** PARTNERSHIPS FOR THE GOALS

  
SUSTAINABLE DEVELOPMENT GOALS

# Current R&D?

Pakistan has spent around 80 billion on R&D.

Produced 148,678 Publications (Till 2021 Research Gate)

84040 Researchers R&D (World Data Atlas)

12 Center of Excellence and 42 Research Center (Wikipedia)

**Pakistan Rankings - Sustainable Development Report**

AVERAGE PERFORMANCE BY SDG

## OVERALL PERFORMANCE

COUNTRY RANKING

**PAKISTAN**

**125** / 163

COUNTRY SCORE

REGIONAL AVERAGE: 65.9

# Tech Industry

## Pakistan's Tech Industry 3.5 Billion USD

### 1: INDIA'S TECH INDUSTRY IS SCALING NEW HEIGHTS

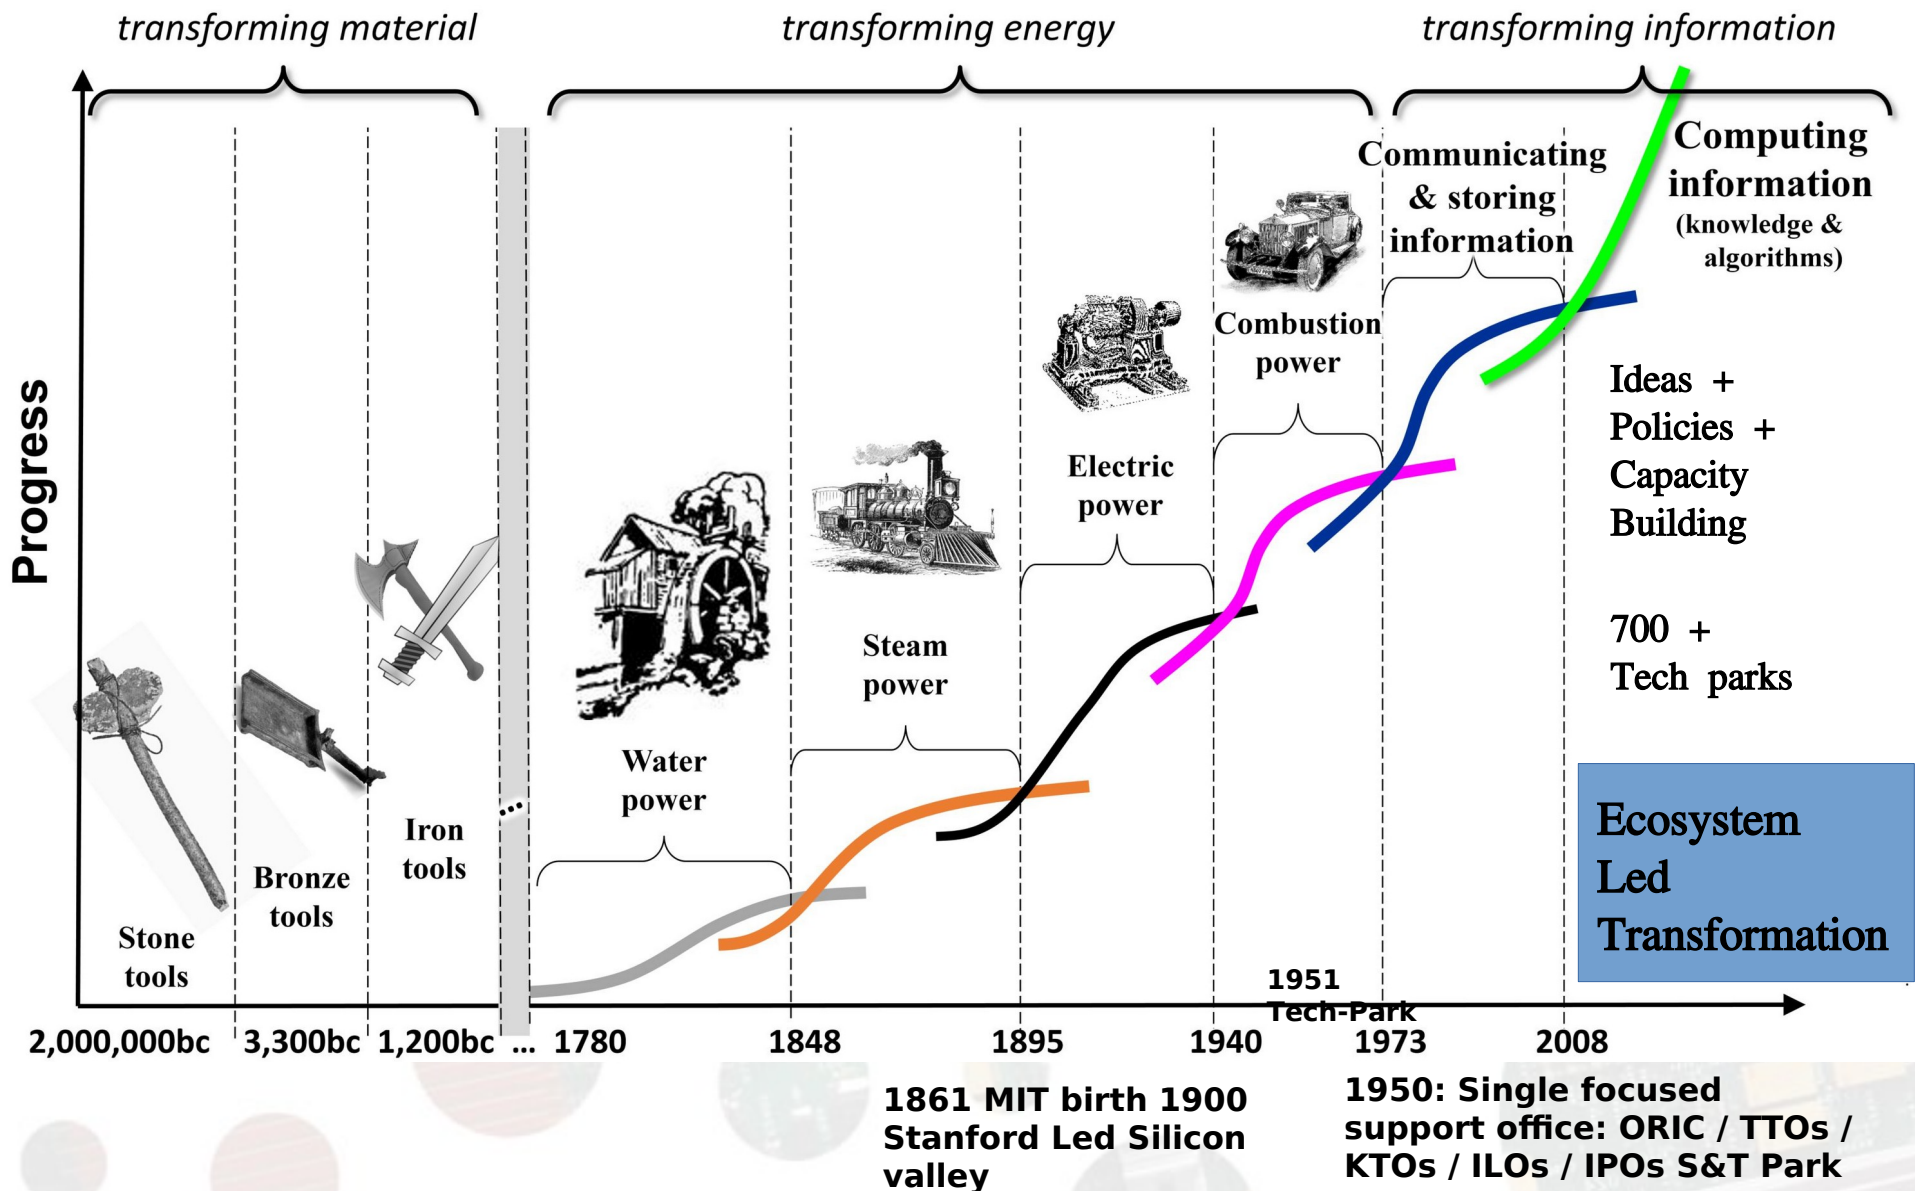

Tech industry revenue, \$ Bn

■ Domestic ■ Exports

NASSCOM Strategy Review 2022, 2020, 2018, IBEF; Data for 21-22 are estimates

# Mankind Progress

**Market Discovery - Challenge:** Economic, societal & environmental challenges and opportunities.

**Case Study:** Theoretical Model, Mathematical Model, Simulation Model

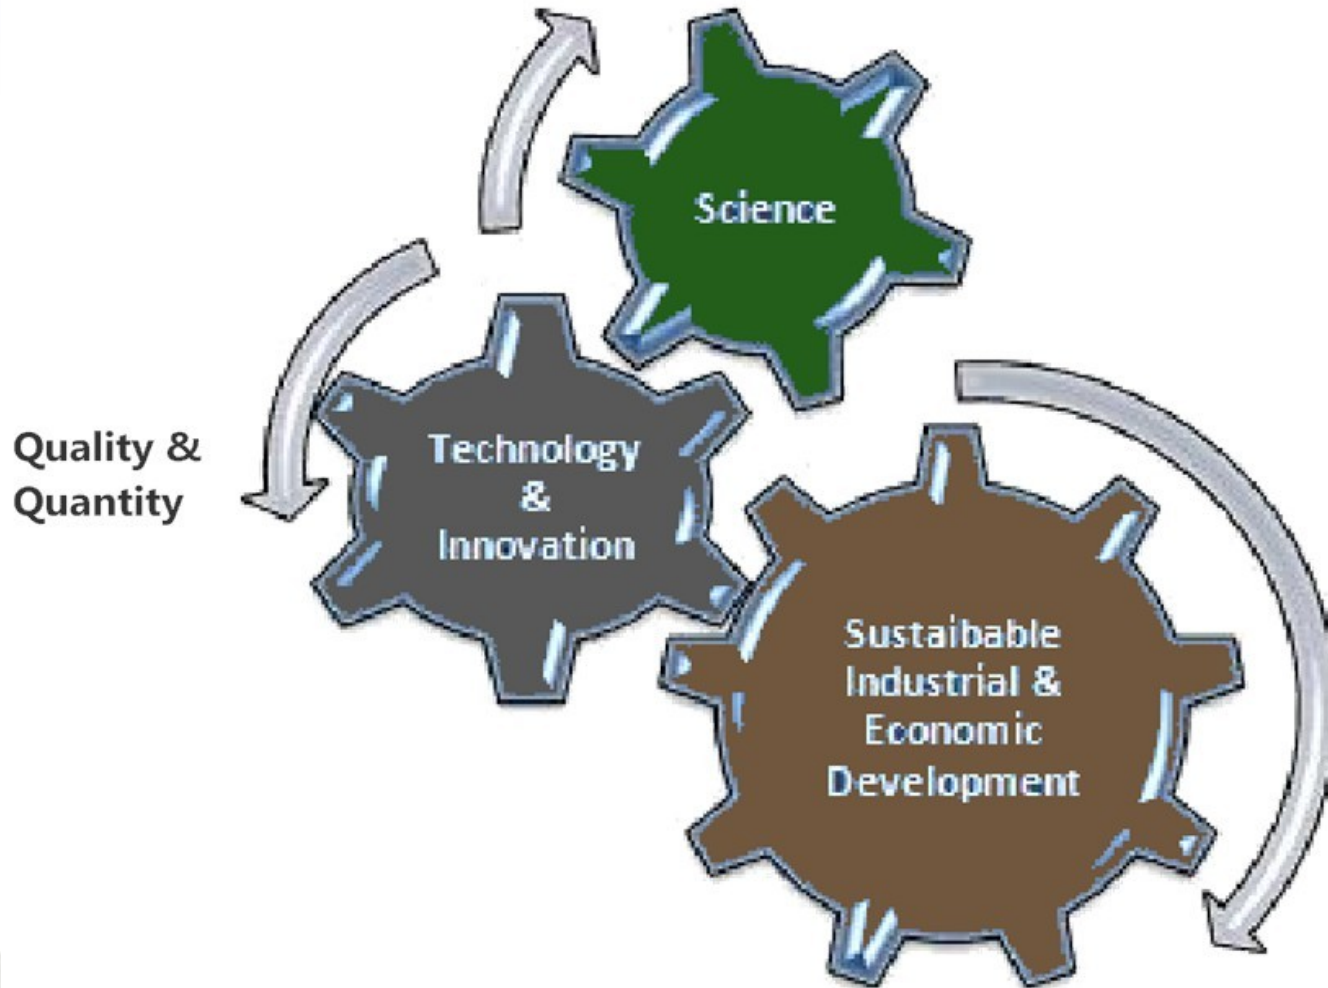

**End Users Engagement:** Targeted Audience, Understand required features, functionalities and deliverable.

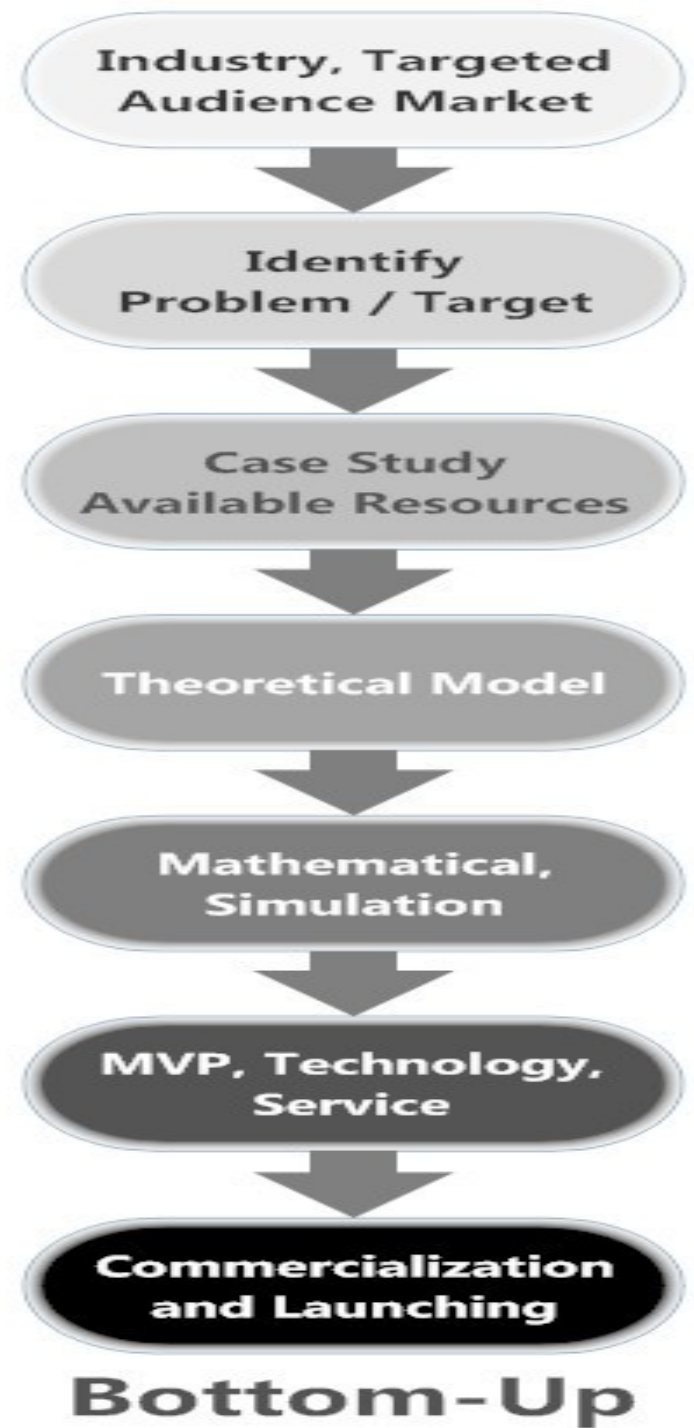

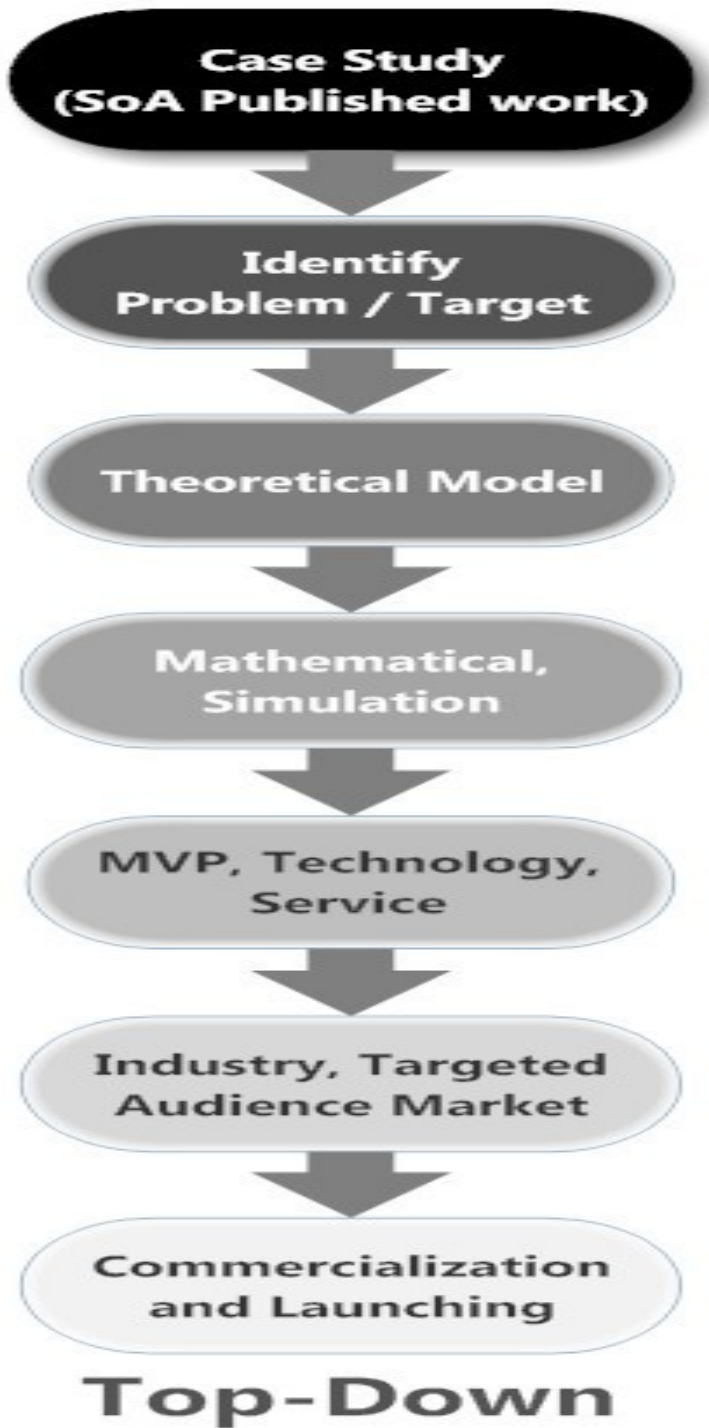

**Value Chain:** Procurement, Technology Development, Project Team, Cost Analysis. In-bound and Out-Bound Logistics, Marketing and Sales.

**Trade-offs:** Competitor Analysis, Ensures risks and potential negative impacts are considered and where possible they are addressed/mitigated in all phases of the project.

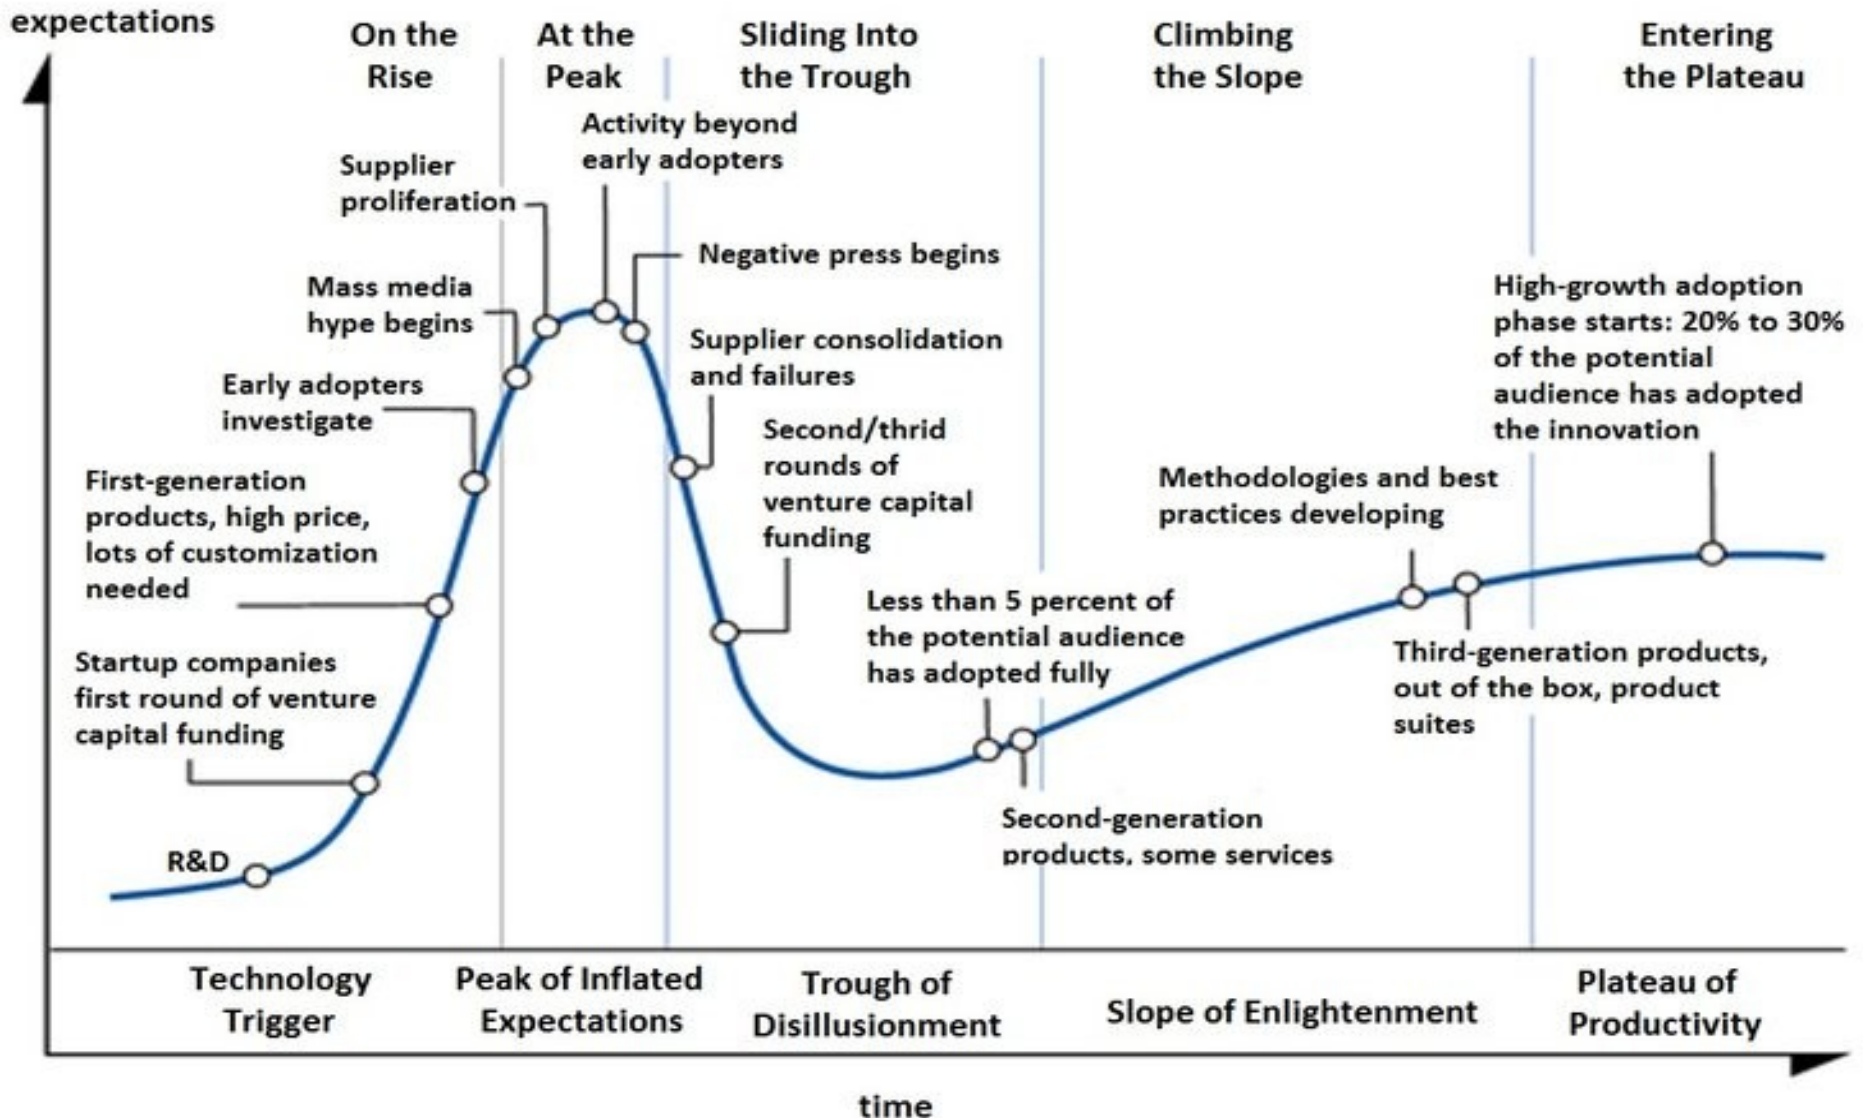

# Industrial Revolutions and Sustainable Developments

Social, Life, Environment

# Hype Curve

# Focus on Emerging Technologies

IoB

Total Experience (TX)

Hyperautomation

Edge Artificial Intelligence

5G

Cybersecurity Mesh

Distributed Cloud

Augmented Reality and Virtual Reality

Quantum Computing

Blockchain

# Conclusion

- **Identify Challenge Having Impact for Research**
- **Integrate Technological Solution (Emerging Tech)**
- **Apply Bottom-Up Approach for Solution**
